JK CONSTRUCTIONS

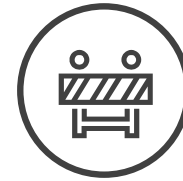

leading name in the construction business

We are an innovative and dynamic group, which specializes in all facets of geotechnical construction projects. At JK Constructions, we feel extremely proud to be associated with the field of engineering as it has not only enriched our knowledge but has also enhanced our experience in providing a vast range of geotechnical solutions across the country. The twin principles of engineering excellence and constant innovation have helped us to become one of the top engineering solutions company in this part of the country today.

We work collaboratively with clients and adopt a culture of learning and development to ensure that our solutions meet the current and future needs of the industry.

We are administered by a group of experienced professionals and leading a team of skilled staff. Equipment's and techniques used are carefully selected to costume prevailing ground and environmental conditions.

Quality Management

Continually improve the effectiveness of the quality management system and consequently the overall performance of the company and the satisfaction of our customers.

Approved Material only

Identify and meet the specified requirements of the Client, Provide value for money by means of good workmanship and the use of approved materials.

Safety First

Minimise the risk of accidents and work-related ill health for our employees and proactively seek to improve performance

company mission

WE HAVE GREAT EXPERIENCE IN THE PILING
PROJECTS. WE HAVE HIGH FLAGGED CLIENTS
AND WE HAVE DREAMS OF EXPANDING

VISION: We aspire to be pioneering leaders and
the most trusted business conglomerate

MISSION: We create and deliver superior
products and services to enrich the quality of
life of our customers

We have great team which is
especially dealing in piling projects as
direct contractor as well as sub
contractor for pile foundation
projects.

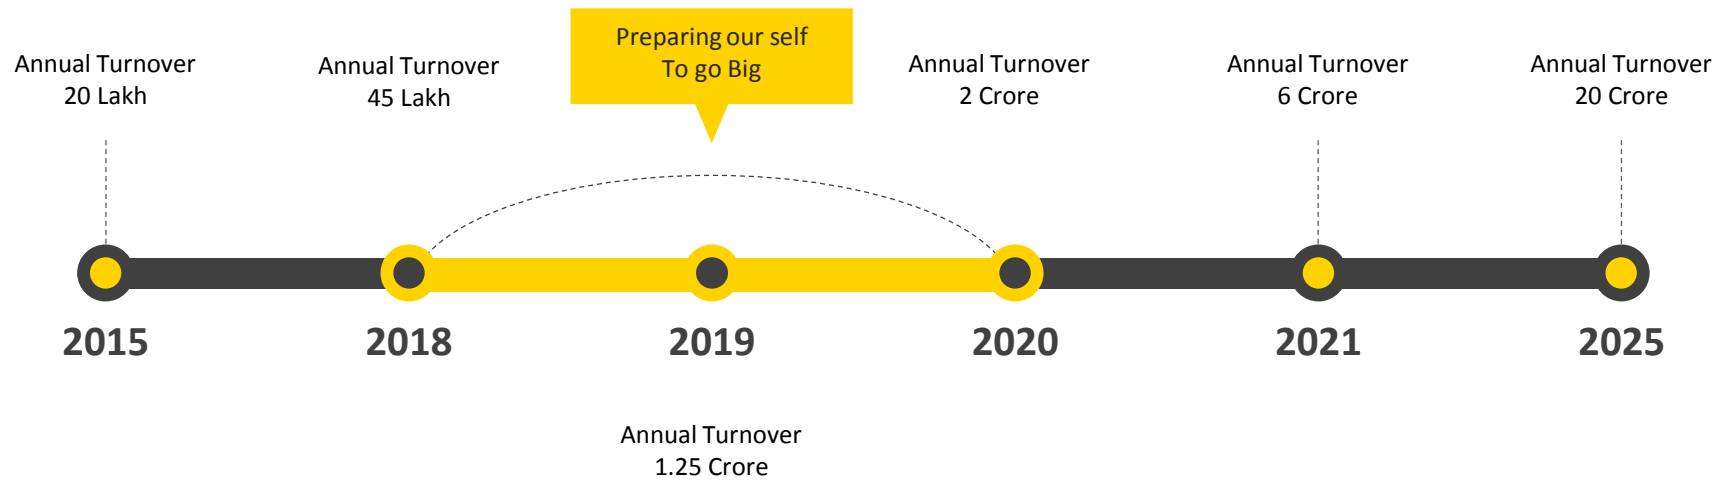

world class piling and construction
foundation equipment like truck
mounted drilling rig & hydraulic piling
rigs with latest tooling and
accessories

Ongoing Vision

today's contracts and contracts into the future.

JK Construction has an ongoing vision to maintain the company as a leading foundation engineering contractor in the civil engineering sector throughout India.

FEATURED DUO

“

we feel extremely proud to be associated with the field of engineering as it has not only enriched our knowledge but has also enhanced our experience in providing a vast range of geotechnical solutions across the country.

”

JAFRUDEEN
KHAN

FOUNDER & CEO

“

We are widely known for our knowledge and awareness of the latest trends in the specialized construction sector combined with the passion and innovation that goes along with our work.

”

IRFAN KHAN

DIRECTOR

WHY CHOOSE US?

Implementing a strict quality, health and safety management system for executing our projects

Our emphasis on quality, timely delivery and professional project management ensures we are counted in the best civil construction companies

latest technology

We have latest technology and expertise to check out the right kind of machinery for your requirements.

Experts Analyse

experts analyse and guide you with the process depending on the type of soil.

cost effective solution

aspire to present our clients base with safe, specialized and cost effective solution for the challenges of their projects

Experienced Technical

We are having a team of trained, competent and experienced technical staff to provide effective solution

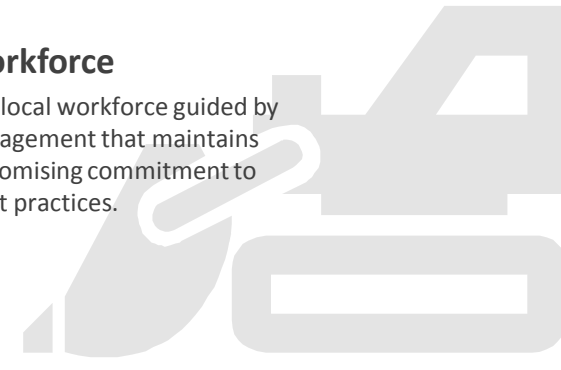

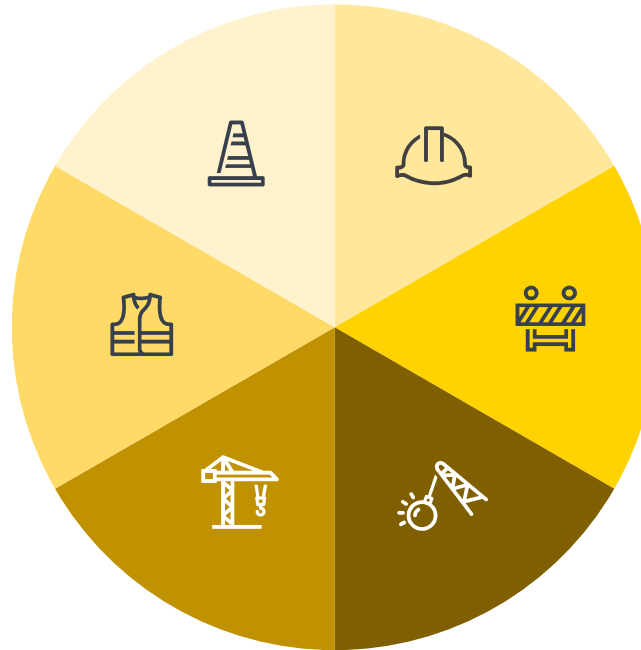

Quality of material

We provide effective solution and execute and monitor the project to utmost satisfaction and best interest of the client using finest Quality of material

Local Workforce

well trained local workforce guided by an able management that maintains an uncompromising commitment to industry best practices.

What We Do

We adhere to the basic solution of technologies which are proven in the respective fields. Every services are an outcome of intensive research and innovative thinking, practical knowledge and vast experiences of our principles which give us a technical assistance before and during the project execution.

Piling Works

Civil Structure

Rain Water Harvesting

Tubewell Works

MACHINERIES & TOOLS

Offering the best quality products and services to our customers

Jk Constructions owns a full range of manual / automatic equipment's and specialized tools to meet all the jobsite needs. Our Operator's are trained and professional they are best at what they do.

Water Borewell Drilling Machine

Quantity: 3

The rig unit is mounted on a suitable single axle trolley. Power source for hydraulic from suitable diesel deck engine of 45 bhp

Truck mounted Rig Machine

Quantity: 10

drill rig is ideal for water well drilling application in rock formation. Thanks to its simple and compact design, excellent performance, high accessibility and reliability at afford cost in its class.

Rig's flexibility means it can be mounted on single truck version, two truck versions and on local truck matching the rig to the terrain it will be used. Can be used for both DTH and mud rotary drilling.

SANY rotary drilling rig

Quantity:1

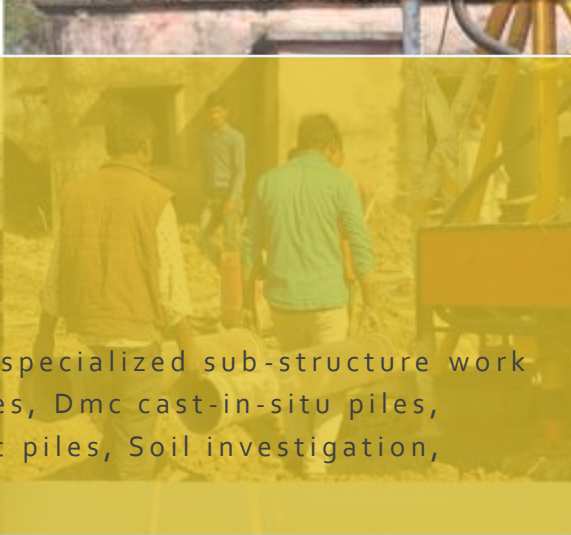

rotary drilling rig is a classic model features with high efficiency, low fuel consumption, smart and flexible, suitable for hard soil drilling, cast-in-place pile foundation work in civil engineering..

PICTURES GALLERY

the Company has executed specialized sub-structure work like Rotary piles, Micro piles, Dmc cast-in-situ piles, Design Build, Bored precast piles, Soil investigation, Rock anchoring

Our Clients

Our operators, drivers and spotters are selectively employed to ensure that each project delivery is of the safest manner, highest quality and cost effective approach.
